

**Oil Cool Type CT & PT 11 / 33 / 66 / 132 KV for Protection & Metering**

## Reliability Quality & Customer Satisfaction

A Vision motivated by Mr A.P. Sachdev. to set up ELECTRICFIELD (1968), is a success story armed with an unbounded technical and professional spirit with a well-designed goal and the Will to Win.

With a modest start as Electrical Consulting Engineer to the Government Undertaking and Industrial Sector, ELECTRICFIELD pioneered into manufacturing of various electrical products used by Power House, Grid Stations, Industries and Commercial as Domestic utilities.

Today the organisation is known by its products. Over a period of time Electricfield came to be known as a company of Power Conditioning equipments, associated with diversified equipments like control and Relay Panel upto 220 KV system, Battery Charging equipment and other associated items. All this further speaks about our products, our services, our growth, our diversification, our manufacturing facilities and capabilities etc.

Electricfield is proud to say that every member of the company believes that "customer is king", a belief that reflects in every aspect of our work. While catering to many clients worldwide we are very stringent about customer satisfaction and henceforth we have achieved what we are today.

**11 KV Vacuum  
Circuit Breaker Panel**

**Control & Relay Panels  
33 / 66 / 132 / 220 KV for  
Protection & Metering**

**Battery Charger  
Automatic Float  
& Boost Type**

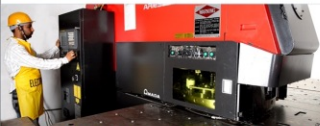

**Dry Type  
C.T. & P.T. 11 / 33 KV**

**H.T./L.T. Servo Voltage Stabilizer**  
Capacity 1 KVA - 10,000 KVA  
Voltage Level upto 33 KV

**LT Control Panel upto 6300 Amp.  
Rating for 50 KA Short Circuit for  
1 Sec & I.P. 54 Degree of Protection**

All  
fabrication done  
through

JAPAN, CNC MACHINES

Channel Partners:

Schneider  
Electric
